

4 ways for CIOs to drive business agility and growth

The essential CIO toolkit

The pace of change is accelerating across every industry. In a world where digital is imperative, companies must ground in agile foundations that can handle an unpredictable future.

CIOs have an opportunity to lead this effort and accelerate business outcomes. In this report, you will find actionable steps recommended by seasoned CIOs on how to:

- Frame IT's opportunity to accelerate business outcomes.
- Structure your integration team differently to optimize for efficiency.
- Justify investments in the new model for innovation that's emerging.
- Measure the value of integration.
