

Open insurance and the rise of open API ecosystem

Open API economies are the path forward amid digital disruption. Strategic alliances spanning a diversified set of partners will open new markets, product offerings, and services dictating the modern carrier's future.

Hear from industry experts, Willis Towers Watson, and MuleSoft's Insurance API strategy expert on the insights and realities of open insurance and API ecosystems.

Watch this webinar to:

- Learn about the rise of the open API economy in the insurance industry.
- Discover how API-led is helping carriers leverage innovation across an ecosystem.
- Hear from experts on the future growth for the modern carrier.

This webinar is sponsored by Willis Towers Watson.

Presented by:

David Ovenden, Managing Director, Pricing, Products, Claims and Underwriting, Insurance Consulting & Technology at Willis Towers Watson

Alexander Solomon, Global Insurance and Wealth & Asset Management GTM Lead, MuleSoft

Prashant Choudhary, Client Architect, Office of the CTO at MuleSoft
