The No-BS, Data-Driven Digital Booking Playbook for 3PLs

How Capacity Management helps 3PLs reutilize carriers, build deep relationships and drive digital bookings.

Leading 3PLs are investing in digital booking to build deeper relationships with carrier partners while simultaneously increasing margins and improving service to shippers. But how do they get there and where do they start?

Achieving digital bookings requires a new type of technology, one designed to look beyond the next match and help you manage, retain and expand your current carrier capacity.
