

# Automated Attack Surface Management

## Automated Attack Surface Management

Organizations today face a complex threat landscape. From the rapid adoption of cloud technology to the persistent risks relating to the supply chain, it's imperative that enterprises have a comprehensive view of their attack surface. However, monitoring your attack surface is only half the story. Taking action on the vulnerabilities you discover is the other half.

Organizations today face a complex threat landscape. From the rapid adoption of cloud technology to the persistent risks relating to the supply chain, it's imperative that enterprises have a comprehensive view of their attack surface. However, monitoring your attack surface is only half the story. Taking action on the vulnerabilities you discover is the other half.

Download the solution brief to discover how the Cortex® XSOAR and Cortex® Xpanse™ integration makes Palo Alto Networks the ideal partner to help companies bring security from the inside out and from the outside in.
