

# CFOs See a Clear Pathway to Growth Through Global Expansion

## CFOs See an Optimistic Future Through Adopting a New Global Hiring Approach

That is one finding of a survey conducted by CFO Research of Industry Dive and Globalization Partners polling senior finance executives from companies in North America, Asia-Pacific, and Europe.

The majority of CFOs reported that the coronavirus pandemic fundamentally altered the way they think about hiring and workforce management — 81 percent said it transformed how they consider remote employees and the work-from-anywhere model.

**How has this shift in thinking impacted predictions for business growth and goals for 2021 and beyond? Download the report now to learn:**

- Why CFOs believe success is tied to global expansion.
- How finance leaders plan to incorporate the work-from-anywhere model.
- How CFOs think differently across North America, Europe, and Asia-Pacific.
