

Maximize healthcare savings

According to a recent study, it's estimated that among 1.30 million emergency department visits per year in the United States, 7.4 million patients are misdiagnosed. An Expert Medical Opinion (EMO) can help employees reduce the potential costs and harm of such misdiagnosis. In this webinar, leading healthcare experts Rich Krutsch, Ross Caplet and Mina Egan will help you understand and realize the full value of an EMO solution with your comprehensive employee health benefits plan.

Attendees will hear from an innovative employer who:

- Improved employee healthcare utilization, overall satisfaction and job retention
- Optimized their EMO offering to maximize total employer healthcare saving
- Created complimentary EMO solutions and Centers of Excellence
