

# Improving Business Agility Through Resource Optimization

October 2022

Bryan Ball  
Group Director  
Supply Chain, GSM, Finance, and ERP Practices

Sarah Gaffney  
Manager  
Research Data & Operations

Today's professional and business services firms face a number of industry challenges, such as suppressed operating margins, global logistic complexity, talent constraints, and changing customer behaviors.

Read this report by Aberdeen Strategy & Research to learn how business and professional firms can take a best-in-class approach to resource optimization and translate that into business results.
